AED PLUS®

A Full-Rescue AED for Professionals

ZOLL®
Advancing Resuscitation. Today.
Five-Year Shelf Life

Infrequently used AEDs demand electrodes that require infrequent replacement. Most AED electrodes on the market today will corrode or expire before they are used. ZOLL CPR-D-padz® is designed to control corrosion and allow for an unmatched five-year lifespan. This reduces electrode replacement costs, facilitates AED readiness and maintenance, and decreases the probability of an AED failure due to electrode expiration.

In addition, the CPR-D-padz comes complete with barrier mask, scissors, disposable gloves, prep razor, towel, and moist towelette.
